

Terms of Use for TLS/SSL Certificates

1. Provision of True and Accurate Information

Upon ordering an SSL certificate, the Subscriber undertakes to provide the KIR with true and accurate information regarding the certificate subject's data (subscriber) throughout the certificate's validity period. This information shall include both the data contained in the order and the data contained in the certificate generation request, including the public key for which the certificate is to be prepared.

2. Protection of Private Key

The Subscriber shall protect the private key associated with the public key for which the KIR will issue the certificate. This protection shall include controlling the use of the private key, ensuring the confidentiality of the private key, and safeguarding all information related to it.

3. Verification of Certificate Data

The Subscriber shall verify the accuracy of the data contained in the issued certificate.

4. Installation of Certificate

The Subscriber shall install the certificate only on a server that supports the domain name(s) listed in the certificate issued by the KIR.

5. Lawful and Contractual Use

The Subscriber shall use the certificate in accordance with applicable law and the terms of the Agreement.

6. Termination of Certificate Use

The Subscriber shall promptly cease using the certificate and the associated private key and notify the KIR of the request to revoke the certificate in the following cases:

- a. Incorrect or inaccurate data contained in the certificate,
- b. Suspicion of improper use of the certificate,
- c. Compromise of the private key,
- d. Discontinuation of use of the private key associated with the public key contained in the certificate at the time of the certificate's expiration or revocation,
- e. e. Other cases as provided for in the KIR's Certification Procedure for Trusted Non-Qualified Certificates.

7. Reporting of Compromised or Misused Private Key

In the event of a compromise of the private key or its misuse, the Subscriber shall follow the instructions provided by the KIR.
